

SILIANO ODUNO

AGUA AGUA

Water means life

"AGUA AGUA" is a groovy song about the right of all people in the world to have free access to drinking water.

It sounds fresh as water.

Composer, producer and singer Siliano Oduno presents to you two ready-mastered versions on this CD: A RADIO EDIT Version and a really hot OLIVER MEADOW REMIX.

It is frightening how negligently strangers exploit the resources in other countries. We approach the topic step by step and inspire each other. It is always nice to see how clear lyrics slowly develop from initial thoughts and are supported by a harmonious arrangement of one's own composition.

Water means life and is existentially important on any continent. The few water sources must not dry out. My new song "AGUA AGUA" is about the right of all people in the world to have free access to drinking water. We worked for a year on this really fresh song and video. You will find an elaborately produced music video for this new song on YouTube and other social media as well as on the homepage. The two Senegales professional dancers Diene Sagna and Helene Sagna have developed their own beautiful choreography for my song "AGUA AGUA". An excellent collaboration.

Thanks to my empathetically committed team partners. Together we made a plant bloom with all the colours of a firework.

Passionately engaged team partners along the way...
